PROGRAM INTRODUCTION

Institute for Peace & Dialogue, IPD is one of the leading organiser of several successful annual international academic trainings and research programs in Switzerland in the field of peacebuilding, conflict transformation, mediation, security, intercultural dialogue and human rights which these events bring together state, private and public sector representatives.

IPD is very glad to announce its next **International Summer Programs** which is going to be held in Switzerland. Applicants could choose either **10 - 20 days Summer Academy** or **3 Month CAS-Research Program** together with **10-20 Days Training** participation in the filled application.

Our experts, who are professionals in their fields, will contribute to this event, with many years of experience in peace and conflict studies.

Nowadays unfortunately several frozen or ongoing conflicts between or within states still exist. Conflicts are different and if we look to the world mankind, how they are facing many new challenges, coupled with new dangerous situations, i.e. terrorist acts, non-legal arming of conflict sides, re-determination of borders, establishing new countries in the world map, non-providing territorial integrity, trafficking of arms, drugs and human; disputes on the implementation of transnational energy projects, democratization and false elections, revolution and internal political conflicts, armed guerrilla movements, violation and discrimination by nationalists, world economic crisis, climate change and unsafely biodiversity etc. Unfortunately the list is long. Conflicts are related and an integral part of human beings, as conflicts cause violation of human rights.

Existing conflicts weaken every kind of cooperation between nations and states. Without mutual cooperation and understanding, the future prosperity of the region would remain only as a good dream. Taking into consideration of peaceful behaviour and engagements, we can make a decision on the strict belief, that opportunities for solving conflicts are feasible.

Because in every conflict situation and tension forms we consequently face the below mentioned common situations:

- Desperate situation and non-solving problems are not eternal.
- It is possible to make common decision and find common values, even the both conflict sides are thinking differently.
- If the hostility thinking becomes stronger, there are no winner and right side.
- Protracted conflicts on the same time endanger to the development and prosperity of conflict parties.
- Any peaceful mediation and negotiation actions are useful than nothing.

MAIN GOAL OF THE SUMMER PROGRAMS

- The main goal of the **10 or 20 days Summer Academy** is to strengthen the skills of the representatives from state institutions, business sector, INGOs/NGOs, education institutions, religious organisations, independent mediators and politicians through academic trainings in peacebuilding, mediation, conflict resolution, security, human rights and intercultural dialogue fields.
- The main goal of the **3 Month CAS-Research Program** is to develop the skills of the researchers via academic trainings, reading materials, Supervisor guidance and closely acquaintance them with relevant Swiss state, public and private Institutions.
